## Product Features

### Material features

Sefar offers a wide range of filtration media and highly industrialized fabrication capabilities.

Inherent to our synthetic materials are:

- Good fatigue properties compared to metal mesh
- Easy to handle and no sharp edges
- High strength and tear resistance
- Non-shedding properties

### Open mesh fabric

### Closed mesh fabric

### Depth filter material

#### Sefar Inc.

111 Calumet Street  
 Buffalo, NY 14043 – USA

- High precision and reliable mesh opening
- Low pressure drop
- Various surface modifications available
- High performance polymers for extreme and harsh conditions
- Highly efficient particle retention
- High throughput
- Excellent surface properties
- Highly efficient particle retention
- Low pressure drop
- Resistant to corrosion caused by fuels and blends
- Maximized filtration area
- State-of-the-art bonding technology

### Fabrication & Converting Solutions
