

Tape and Dispenser Products

These fabrics are combined using one or several adhesive layers or a dispenser tape. We provide dirt and moisture protective products, shock absorbing, surface protecting and sealing materials and shielding components.

Product Features

Tape and Dispenser Products

These products are made by combining fabrics, foils or films with one or several adhesive layers. Alternatively a combination using a dispenser tape is also possible.

Product forms

- The pieces are cold- or laser-stamped into single rings or customer specific shapes
- Laser stamped parts can be supplied having a max. dimension of 245 x 245 mm
- Cold stamped parts can be supplied having a max. dimension of 120 x 120 mm
- Adhesive components can be supplied having a one- or double-sided adhesive layer
- Can also be supplied on a dispenser tape without any adhesive backing
