

# Centrifugal, Vibro- & Turbo-Sifter

Under the brand-names SEFAR NYTAL we offer a comprehensive range of fabric cylinders for centrifugal sifters (turbo and vibro). Our polyamide fabrics are also available as ready-made cylinders.

## Product Features

### Product features

With around 190 years experience in the manufacture of precision fabrics, Sefar offers market-leading fabric technology in the milling industry – from yarn to fabric, precisely tuned for each type of centrifugal sifter. The range includes PET and PA fabrics for efficient screening in all stages of your process. All fabrics conform to current FDA and EU regulations.

### Fabrication solutions

#### Cylinder

The ready-made sieve covers (cylinders) are not stitched at the seams, but welded. There are, depending on the nature of the fabric, either the reinforced stitching (AR – armed) for fine fabrics or high-frequency (HF) stitching for coarse fabrics.

HF seam

AR seam

- The seam is welded and not stitched
